Andrew,

I think this is terrific - clearly laid out, easy to follow, comprehensive, thoughtful.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

They

are on the L drive, and in HERO; Barbara can help if you have trouble finding them.

- I made some edits/comments
- I added page numbers, and did a global search and replace for 5mg to 5 mg
- I think you should send this to Matthew Perzanowski, Columbia University or Peter Gergen at National Institute of Allergy and Infectious Diseases and ask them to review. They were on are allergy/asthma panels we worked with to develop our evaluation of epi studies.
- PUBLISH THIS - Perzanowski or Gergen could give advice on this, and might be interested in being a co-author, which I think would be good to make sure you reach the best audience
